DELTA SIGMA PI

CHAPTER BYLAWS FORMAT

This template is designed to help you format your own chapter bylaws. This template is in compliance with the National Bylaws and Policies. Please use this format and style to be in compliance. Each chapter should fill in all the blanks in this set of chapter bylaws and submit to the Central Office for final approval. A new set (even if no changes were made) is due to the Central Office by November 15 annually. Following submission, the bylaws will be available for reference in your chapter's Document Well on the National Fraternity web site, www.dspnet.org. All chapter members should be given a copy and become familiar with chapter bylaws and all chapter business should be conducted in compliance with them.
