Field Note: Geography, Trade, and Development	
When was Timbuktu a renowned intellectual, spiritual, and economic center?	•
How did Timbuktu fall out of disfavor as a trading center?	•
Why does Timbuktu serve as a reminder on the importance of location?	•
What are some of the other examples the author mentions where the value of the commodities didn't particularly benefit the lives of the people living there?	•
Who ended up benefitting the most from these commodities?	•
What is a commodity chain?	•
What does each link in the chain add?	•
What did Timbuktu have to offer geographically to the commodity chain during the 13th-16th centuries	•
Why was the river important?	•
Why was Timbuktu a break-of-bulk location?	•
How is Development Defined and Measured? 337-342	
What are the major issues to understanding development in the contemporary world?	•
What does development really mean?	•
What does developing really mean?	•
Gross National Income 337-339	
What are the three areas of concern when measuring development?	•
How did they begin to measure economic development in the 1960s?	•
What is the GNP?	•
What does GNP include in its measurements?	•
What is GDP?	•
What is GNI?	•
Why is the GNI seen as more accurate in measuring the wealth of a country?	•
What is per capita GNI?	•

What currency is used to measure the GNI?	•
What does the range in GNI across the globe reflect?	•
What are the shortcomings of using the GNI?	•
What is the formal economy?	•
What is the informal economy?	•
What are some examples of the informal economy that the author mentions?	•
What else does the GNI mask?	•
What does the GNI leave out that is important to actually know how developed a country is?	•
How does the GNI measurement of output skew the economic picture?	•
What are the nonmonetary costs of production?	•
What is another way of measuring economic development?	•
What does a high percentage of laborers engaged in the production of food staples indicate ?	•
What does a high percentage of laborers engaged in the high-tech industries and services signal?	•
How is productivity per work examined?	•
What does a more productive workforce indicate?	•
How do some analysts measure access to technology?	•
What are some examples the author uses to indicate per person transportation and communication?	•
How does the dependency ratio measure the social welfare of a country?	•
Explain the dependency ratio.	•
What does a high dependency ratio signify?	•
What are some other methods of measuring welfare? (6 items)	•
What is the one limit that each statistic shares with the GNI?	•
Development Models 339-342	
What does the word developing suggest and what indicators are used to measure it in a country?	•

Why has classifying countries in terms of development come under increasing attack?	•
What does it leave out geographically speaking?	•
Explain the western bias criticism. What does this mean?	•
Explain the criticism of other countries having an influence on the development of some countries?	•
Who is Walt Rostow and what model did he create for measuring development of countries after decolonization?	•
What does Rostow's modernization model of development assume?	•
Explain Stage 1 of Rostow's Model of Development.	•
Explain Stage 2 of Rostow's Model of Development.	•
Explain Stage 3 of Rostow's Model of Development.	•
Explain Stage 4 of Rostow's Model of Development.	•
Explain Stage 5 of Rostow's Model of Development.	•
How Does Geographical Situation Affect Development 342-344	
"Development happens in context." What does this statement mean?	•
What three levels or scales must we study to understand development in context?	•
How did European ideas of the state and economic exchange diffuse through the world?	•
What two forces made colonies dependent on their colonizers?	•
Who reaped the benefits in this unequal partnership?	•
After the end of colonization what kind of interlinkages still existed between the colonizer and the formerly colonized?	•
What is neo-colonialism?	•
What is a structuralist theory?	•
What were the structural circumstances that make it difficult for poorer regions to improve their economic conditions?	•

What is the structuralist argument against the development theory?	•
Dependency Theory 342-343	
Explain the dependency theory.	•
What example does the author give regarding the dependency theory and colonialism?	•
What are the results of this dependency on the dominant regions and the dominated regions?	•
How does currency link the wealthy country to the poor country?	•
How do they link their currency to the wealthier country?	•
What is the process of dollarization?	•
How are modernization and dependency theories similar?	•
Geography and Context 343-344	
Why are geographers drawn to Wallerstein's World Systems theory?	•
What is the three-tiered structure?	•
How do core processes work?	•
How do peripheral processes work?	•
What happens when peripheral processes are embedded in a place?	•
Where is the wealth generated from these peripheral processes being put in place?	•
Explain the process of semiperiphery?	•
What is the fundamental difference between the core-periphery model and the modernization model?	•
Why is it sensitive to the geographical context in economic terms?	•
How do world system theorists view domination?	•
What are the Barriers to and the Costs of Economic Development? 344-358	
What are the 8 Millennium Development Goals?	•
Barriers to Economic Development 344-354	
What conditions in the periphery are considered barriers to economic development? *6 items*	•
What is the "chicken-or-the-egg" debate?	•

Social Conditions 345	
What causes low-life expectancy, high infant and mortality rates in most poor countries?	•
How does lack of access to education affect periphery countries?	•
Lack of education for girls is based on what concept?	•
Why is trafficking a problem in peripheral countries?	•
Why is this not considered slavery in many countries?	•
What is the major occupation for children being traffricked?	•
What occupations are trafficked girls usually found in?	•
Foreign Debt 345-350	
What are structural adjustment loans?	•
What did these countries who received structural adjustment loans agree to in order to receive the money?	•
What is the meaning of the "cost of serving their debt?"	•
What happens when a country has to spend a large portion of their revenue on servicing their debt?	•
What is neoliberalism?	•
What was the trade-off for these countries who had to shrink their governments in order to qualify for IMF or World Bank Loans?	•
Disease 350-351	
What are vectored diseases?	•
Why is Malaria looked upon as the "silent Tsunami?"	•
What is Malaria?	•
How many people die in one year alone from Malaria?	•
What regions is Malaria most prevalent?	•
How did Sri Lanka fight their Malaria epidemic?	•
What were the negative consequences of spraying DDT and bring down Malaria infections?	•
Why does spraying pesticides only work for a	•

certain period of time?	
How are scientists fighting the spread of Malaria today?	•
Political Corruption and Instability 351-354	
What are the two major actions that can contribute to extreme political instability in a country?	•
Why do countries in the periphery and semiperiphery have a difficult time establishing and maintaining democracies?	•
Why do democracies tend to have slightly less corruption then other forms of government?	•
What examples of countries does the author use to signifiy the relationship of economic and political instability? (3 countries)	•
Costs of Economic Development 354-358	
What are the 3 major ways economic development can change a place?	•
Industrialization 354-355	
What are Export Processing Zones (EZPs)?	•
What and where is the Mexican Maquiladora Zone?	•
What happened to U.S. manufacturing as a result of the Mexican maquiladoras?	•
What was the major push for U.S. corporations to move these plants to Mexico?	•
What are the conditions for workers in the maquiladoras	•
Explain the meaning of NAFTA?	•
What countries participate in NAFTA?	•
What kinds of jobs quickly moved from the U.S. into Mexico as a result of this agreement?	•
Where are these data processing jobs located in Mexico?	•
What are the cross-border problems that plague both the borders of the U.S. at Tijuana and Ciudad Juarez?	•
Agriculture 355-357	
Why is so little food produced for the local market place in peripheral countries?	•

Who is buying the food that is being produced on plantations in peripheral countries?	•
What are the main crops that local farmers produce in peripheral countries?	•
Why aren't these farmers producing high protein crops?	•
Why is there such a problem with soil erosion on these peripheral small farms?	•
What is desertification?	•
How do humans exacerbate the practice of desertification?	•
Where in the world is desertification the worst?	•
Tourism 357-358	
What peripheral island region in Middle America sees the most tourists?	•
What suffers when host countries spend substantial sums of money on tourism investment in peripheral countries?	•
Who owns most of these tourist facilities in the Caribbean region?	•
What are some countries that earn substantial income from tourism?	•
How can tourism strain the fabric of local communities?	•
What is the "demonstration effect?"	•
Why do some workers in the tourism industries in peripheral countries find the work dehumanizing?	•
Why is over reliance on tourism not considered a good thing?	•
Why is the cultural landscape of tourism often a study in harsh contrasts?	•
How do Political and Economic Institutions Influence Uneven Development Within States? 358-362	
Describe the regional disparity the author writes about on the Pine Ridge Indian Reservation?	•
Describe the regional disparity as a result of recent economic growth in the Pacific Rim of East Asia.	•
What affects development in places beside geography and differences in economic opportunities?	•
The Role of Governments 359-360	

Why do the actions of governments influence whether, how and where wealth is produced?	•
How did government decisions made in the past contribute to the devastating floods that occurred in New Orleans in Hurricane Katrina?	•
How is life different for the Appalachian farmer compared to the Wisconsin farmer?	•
What role did government play in creating and maintaining these differences?	•
How did the government attempt to alleviate the uneven development for the farmers in Appalachia?	•
What book did Petra Rivoli write?	•
What was the purpose of her book?	•
What organizations and institutions affect whether and how regions can produce and exchange good on the world market?	•
Islands of Development 360-361	
What are the goals of some newly independent states who have moved built their capital cities away from the colonizers capital cities?	•
How do corporations affect the development of cities?	•
What are "oil cities?"	•
What is an "island of development?"	•
Creating Growth in the Periphery of the Periphery 361-362	
What is one of the greatest challenges to development?	•
What is an NGO?	•
What is the microcredit program?	•
Where are these microcredit programs most successful?	•
Where are microcredit loan programs not very successful? Why?	•
