body start

July 14, 2024

Dear Redford Friends,

We made it! After a few delays, we left Farmington Hills on Monday, July 1 and drove as far as Port Huron, as we had been running last minute errands most of the day. Wednesday morning, we arrived in Shrewsbury—our new hometown.
Since we couldn't be here for our delivery, our daughter met the truck on Sunday, June 30 and took care of our move in. She had our floor plan with furniture in place, so she knew where everything was to go. She had the movers stuff our second bathroom and our second bedroom with ceiling to floor boxes, so she could organize our living room, bedroom, and kitchen to be ready for our arrival. She met us on Wednesday and took us to our apartment. We walked into it and our living room, kitchen and bedroom were in good order—even our bed was made. What a wonderful feeling to be able to sit down and enjoy our new home! She indicated that she wanted to welcome us with no boxes greeting us. Our new home felt warm and cozy.

Since our arrival it has been quite busy. Neighbors have been stopping by—one with homemade soup and another with cheesecake. What a new feeling to have your neighbors' feet away. The world here starts by 9 AM, so we need to establish a new sleep schedule. Everyone is very friendly and extremely helpful. We have been invited to join others for dinner in the evening and to participate in numerous activities. However, we need to get ourselves in order before we become involved. The reason for the delay in this note is the fact we needed to locate our computer equipment and get connected to the Wi-Fi system. This evening, we finally located our printer.

Here is our new address:
35 Julio Drive, Apt. #303
Shrewsbury, MA 01545

If for any reason, you need to send us a package, the address is **30** Julio Drive, Apt. #303 instead of **35**. They receive packages in a separate area and deliver them to a
