This document shows the usage of footnote[1].

Footnotes and endnotes are used in printed documents to explain, comment on, or provide references for text in a document. You might use footnotes for detailed comments and endnotes for citation of sources.

NOTE If you want to create a bibliography, you can find commands for creating and managing sources and citations on the **References** tab in the **Citations & Bibliography** group.

In this document, the footnote is set to locate **below text** and numbering will **restart for each section**.

[1] Footnote is for detailed comments.
