This span[1] should have a custom style (link), but the text after the comma shouldn't, nor should the link.

The contents of this div should have a custom style, but this link should not.

This header should not have the div's custom style

> This blockquote should not.

```
# This code block should not.
```

But this paragraph should.[2]

This should have MyInnerStyle.

This heading should not

This should have MyOuterStyle, but the following elision should have its own style. ...

> This blockquote should include **bold text with an elision: ...**

[1] Neither footnote nor footnote reference should get a custom style from its span.

[2] Neither footnote nor footnote reference should get a custom style from its div.
