For each initiative below is outlined the goals, an approximate roadmap which will likely change as we iterate, signals/metrics to measure success, and initial workitems with a rough **schedule** and contacts where available:

1. State of Documentation
   Goal: Baseline and ongoing metrics tracking doc usefulness and completeness.

2. Content Migration
   Goal: Content is accessible to new employees and is better organized/archived.

3. Wiki (xl)
   Goal: Useful documentation that is archived, searchable and easy to create

4. XL Code Autoreview Bot (XLCRBot).
   Goal: Feedback on basic violations in seconds or minutes at most in either VS or Codeflow.

5. Code documentation
   Goal: Useful, consistent, tool supported comments

6. Education efforts
   Goal: Broad, discoverable channels for updates and news
