Slide 1

A paragraph here. Then…

Another paragraph here!

Slide 2

A paragraph here:

- These
- are
- visible

Then…

- These
- are
- visible

And…

- More
- Bullet
- Points

Slide 3

We can have a pause before a code block:

```
main :: IO ()
main = putStrLn something

something :: String
something = "This wasn't visible at first!"
```

(This sentence should also only be visible after the pause.)

Slide 4

Pauses within lists: (1)

- Something (1)

Something else (2)

- Finally, this (3)

And this (4)

Slide 5

What happens with images?

Let’s put a pause between this and the image:

An Image

Slide 6: Two Column?

Some text here, followed by a pause.

Some more text here.

Some text here, then a pause.

Something after the pause.
