

Counting Online Usage of NeTworked Electronic Resources

Working to make online usage statistics more meaningful

Richard Gedye
Chair
COUNTER

UKSG March 2003

Today's agenda

- Why was COUNTER formed?
- Who are we?
- Who is supporting and funding us?
- **COUNTER Code of Practice**
 - **Principles**
 - **Features**
 - Compliance and Commitment
 - Auditing
- Future Plans

A decorative graphic on the left side of the slide, featuring a yellow square, a red square, and a blue square, with a black crosshair-like shape overlaid on them.

Why was COUNTER formed?

- Libraries and consortia need online usage statistics
- Publishers need online usage statistics
- Usage statistics need to be
 - credible
 - compatible
 - consistent

Why libraries need usage statistics - 1

- Collection Development Tool
 - Provide a more accurate match of information resources to patron needs for learning, teaching, and research
 - Provide the right materials, at the right time, in the right format, via an appropriate method of delivery
 - *"Usage of this journal on the shelf has declined. Should we drop the journal or just its print version?"*

Why libraries need usage statistics -2

- To lobby for increased funding
- To allocate expenditure more accurately
- Benchmarking
 - Within institutions
 - Within consortia
- To inform internal marketing and promotion strategy
- To develop new purchasing models, especially at the consortial level

Why publishers need usage statistics -1

- To support library efforts to procure funding
- To demonstrate that reduced usage of print issues has been compensated for by increased online usage
- To assess the relative importance of the various routes via which information reaches its market
- To experiment with new pricing models

Why publishers need usage statistics - 2

- To provide editorial policy support
- To obtain improved market analysis and demographics
- To improve site design and navigation
- To help plan infrastructure e.g. mirror sites/caches

Who are we?

An organisation with cross
community support.....

Endorsed by...

- AAP, Association of American Publishers
- ALPSP, The Association of Learned and Professional Society Publishers

Code of Practice, Release 1

January 2003

- Basic principles
- Main features

Code of Practice, Release 1: Basic Principles

- Start small
- Start with the basics
- Compatibility is our goal, not sophistication
- Be as prescriptive as possible
- Intended to supplement, not replace, existing more sophisticated or product-related reports
- Provide support and advice for implementation
- Auditing

Code of Practice, Release 1: Main Features

- Definitions of terms used
- Specifications for Usage Reports
- Data processing guidelines
 - Auditing
 - Compliance
 - Maintenance and development of the Code of Practice

Definitions of Terms

- Data elements to be collected
- Page views
 - Bibliographic data
 - Page type
 - Source of page
 - Authentication of user
 - Access rights
- Session data
- Market elements

#	Term	Examples / formats	Definition
3.1.2	Page type		
3.1.2.1	Item	Full text article, TOC, Abstract, Database record	A uniquely identifiable piece of published work that may be original or a digest or a review of other published work. PDF, Postscript and HTML formats of the same full text article (for example), will be counted as separate items.
3.1.2.2	Article		An item of original written work published in a journal or other serial publication. An article is complete in itself, but usually cites other relevant published works in its list of references
3.1.2.3	TOC (Table of Contents)		A list of all articles published in a journal issue

Every effort was made to incorporate or reconcile the definitions with existing ones from other groups, such as NISO and ICOLC.

Specifications for Usage Reports

1. Report content and format
2. Report delivery

Specifications for Usage Reports

REPORT CONTENT AND FORMAT

■ Level 1 Reports

- **Journal Report 1:** Number of successful full-text article requests by month and journal
- **Journal Report 2:** Turnaways by month and journal
- **Database Report 1:** Total searches & sessions by month & database
- **Database Report 2:** Turnaways by month & database
- **Database Report 3:** Total searches & sessions by month & service

■ Level 2 Reports

- **Journal Report 3:** Number of successful item requests and turnaways by month, journal & page type
- **Journal Report 4:** total searches run, by month & service

Journal Report 1: Successful Full-Text Article Requests by Month and Journal

	Print ISSN	Online ISSN	Jan - 01	Feb - 01	Mar - 01	Calendar YTD
Total for all journals			6637	8732	7550	45897
Journal of AA	1212-3131	3225-3123	456	521	665	4532
Journal of BB	9821-3361	2312-8751	203	251	275	3465
Journal of CC	2464-2121	0154-1521	0	0	0	0
Journal of DD	5355-5444	0165-5542	203	251	275	2978

EXAMPLE LEVEL 1

REPORT

Journal Report 2: Turnaways by Month and Journal

	Print ISSN	Online ISSN	Page Type	Jan - 01	Feb - 01	Mar - 01	Calendar YTD
Total: full-text turn- aways for all journals				453	233	318	4765
Journal of AA	1212-3131	3225-3123	Full text Turnaways	23	40	12	342
Journal of BB	9821-3361	2312-8751	Full text Turnaways	18	20	16	287

EXAMPLE LEVEL 1 REPORT

Database Report 1: Total Searches and Sessions by Month & Database

		Jan - 01	Feb - 01	Mar - 01	Calendar YTD
Database AA	Searches Run	2322	2520	2742	29878
Database AA	Sessions	1821	1929	2211	27654
Database BB	Searches Run	3466	3210	4459	36543
Database BB	Sessions	1987	2200	2544	24209

EXAMPLE LEVEL 1 REPORT

Database Report 2: Turnaways by Month and Database

-this report is applicable only where the user access model is based on a maximum number of concurrent users

	Page Type	Jan-01	Feb-01	Mar-01	Calendar YTD
Total Database Record Turnaways for all Databases	Database Record Turnaways	453	233	318	2435
Database AA	Database Record Turnaways	23	40	12	60
Database BB	Database Record Turnaways	18	20	16	82

The above report complies with the COUNTER Code of Practice for collection and reporting of usage data. For definitions of the terms used, see Section 3.

Database Report 3: Total Searches and Sessions by Month and Service

		Jan-01	Feb-01	Mar-01	Calendar YTD
Total for Service	Searches Run	16567	18643	20987	80654
Total for Service	Sessions	12007	12677	13003	65487

Journal Report 3: Number of Successful Item Requests and Turnaways, by Month, Journal and Page-Type

Journal Report 4: Total Searches Run by Month and Service

(This report includes saved searches, modified searches, and searches with zero results)

		Jan-01	Feb-01	Mar-01	Calendar YTD
Collection AA	Searches Run	2322	2520	2742	8006
Collection BB	Searches Run	1588	1322	1643	6998

This report complies with the COUNTER Code of Practice for collection and reporting of usage data. For definitions of the terms used, see Section 3 above.

**EXAMPLE LEVEL 2
REPORT**

Specifications for Usage Reports

REPORT DELIVERY

- CSV file, Microsoft Excel file, or file that can be easily exported to Microsoft Excel
- Available on a password-controlled website (accompanied by an e-mail alert when data is updated)
- Provided at least monthly
- Updated within two weeks of the end of each reporting period
- All of last calendar year's data and this calendar year's to date must be supplied

Enhancements Under Consideration

- Break down usage reports by
 - year of publication
 - type of purchase (subscribed, pay per view)
 - Note: a further survey of librarians may be conducted to learn which reports are preferred
- Define additional terms, e.g., “article download”
- Clarify how to count “full-text requests” (e.g., individual articles vs. subsets of articles)

Data processing guidelines

- Covers only intended usage
- Code of Practice specifies the criteria to be met by the data used in building the Usage Reports
 - Only successful requests will be counted
 - Records generated by the server, together with the requested pages, should be ignored
 - All users' double clicks within 10 seconds on an http-link should be counted as only one request (30 seconds for PDF)
- More detailed guidelines are being compiled on data processing and will shortly appear on the COUNTER web site

A decorative graphic consisting of overlapping yellow, red, and blue squares with a black crosshair.

Compliance

- More than one compliance level
 - Level 1: basic set of journal and database reports
 - Level 2: more detailed reports
- Licence Agreements
 - Standard clause covering COUNTER compliance
- Declaration of COUNTER compliance
 - For 2003
 - Vendors sign declaration and demonstrate to COUNTER that they can provide at least Level 1 Usage Reports
- Register of COUNTER-compliant vendors
 - Maintained on the COUNTER website

Publishers who have stated they intend to comply

Initial List

- American Chemical Society
- American Institute of Physics
- Blackwell
- CABI
- EBSCO
- Elsevier
- Extenza
- HighWire
- Ingenta
- Institute of Physics
- ISI
- NPG
- Oxford University Press

Auditing

- A publisher or content provider will be able to state that it is “Counter Compliant” only if this can be certified through an independent audit
- Audit scope: reports, processes & application of definitions
- Auditing will be required beginning in 2004
- RFP will be issued to qualify auditors
- Auditing processes are under development
- A list of COUNTER-approved auditors will be made available

Maintenance and Development of the Code of Practice

- Full text of the Code of Practice is freely available on the COUNTER website
 - html and PDF formats
- Code of Practice will be systematically extended
- Feedback on Release 1 is actively sought
 - Via test sites involving publishers and libraries
 - Via feedback to COUNTER via the website, International Advisory Board, etc.

Future Developments: 2003 and beyond

- Objectives for 2003
 - Promote and gain acceptance for the Code of Practice
 - Obtain feedback on Release 1
 - Complete list of approved auditors
 - Define and set up a permanent administrative structure
 - Promote membership of COUNTER
 - Full implementation by vendors for 2004 subscription year
- Beyond 2003
 - Build membership of COUNTER
 - Extend and deepen Code of Practice
 - Cover e-books, etc
 - Journal reporting at article level
