

General Aviation Engine Management Predictive-Analysis System

*Vision Micro Design
Bellingham, WA*

INNOVATION

Low cost, Intelligent engine health monitoring system for Small Airplanes

ACCOMPLISHMENTS

- ◆ Network of distributed engine sensors
- ◆ Achieved FAA certification for the warning annunciation panel

COMMERCIALIZATION

- ◆ Partnerships created with major airplane retrofitter - Mod Works
- ◆ Over 1000 systems sold to GA customers
- ◆ Sales to date \$1,250,000
- ◆ Two full time engineering and 2 productions jobs created

**Engine Monitoring System &
Annunciation Panel**

GOVERNMENT/SCIENCE APPLICATIONS

- ◆ Low cost engine monitoring technology is one of the major thrust areas of the NASA AGATE program and is considered a vital element for GA revitalization
- ◆ The HFE technology creates a reduction in pilot work load and thus impacts safety
