

Slide Masters

- ♪ PowerPoint presentations can have multiple masters
 - ♪ The placement and formatting of text objects can be changed on individual slides without affecting the master
 - ♪ To modify background objects and background animation, you must edit the master, which affects all slides in a presentation.

Slide Masters (cont'd)

- *Masters determine placement and formatting of text objects, background objects, and background animation effects for every slide in a presentation.*

I'm a slide with a Title layout

**And I follow the design pattern from the
TitleMaster**
