2 On the Insert tab, the galleries include items that are designed to coordinate with the overall look
3 of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages,
4 and other document building blocks. When you create pictures, charts, or diagrams, they also
5 coordinate with your current document look.

6 You can easily change the formatting of selected text in the document text by choosing a look for
7 the selected text from the Quick Styles gallery on the Home tab. You can also format text directly
8 by using the other controls on the Home tab. Most controls offer a choice of using the look from
9 the current theme or using a format that you specify directly.

10 To change the overall look of your document, choose new Theme elements on the Page Layout
11 tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style
12 Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so
13 that you can always restore the look of your document to the original contained in your current
14 template.
