

Data Validation Tests

Any with value
text length without value, empty allowed
text length without value, empty not allowed
Integer valid
Integer text
Integer non-int
Decimal valid
Decimal text
List valid text different case
List invalid text
List invalid boolean
List valid boolean
List valid number
list invalid number
list text number with number options
date valid, different format than constant constants
date valid, different format than range cells
date out of range
time valid, different format than range constants
time valid, different format than range cells
text length invalid
text length valid
text length valid with multi-byte unicode characters
formula boolean true result
formula boolean false result
formula error result
formula text result (should be invalid)
decimal valid value, > invalid cell ref value
decimal valid value, > empty cell ref value
decimal too big value, > blank < valid # cell
decimal valid value, > valid # cell < blank
formula numeric result
formula numeric result
formula numeric result
