

QUESTION	Average return <n>	Figure merit F		5	4	3	2	1		Null	Check Sum
Course Phy-403 (Statistical Physics)											
Was the subject matter?	3.5	63%	interesting	1.0	11.0	5.0	1.0	1.0	dull	0.0	19
Were the topics?	3.8	71%	mostly new	3.0	11.0	4.0	1.0	0.0	mostly familiar	0.0	19
Was the amount of material?	3.2	89%	too much	0.0	4.0	15.0	0.0	0.0	too little	0.0	19
Was the mathematics?	3.2	92%	too hard	0.0	4.0	14.0	1.0	0.0	too easy	0.0	19
Hours on course	7.4									5.0	
Lectures											
Were the lectures?	3.8	70%	interesting	2.0	13.0	2.0	2.0	0.0	dull	0.0	19
Was the delivery?	4.2	80%	stimulating	9.0	6.0	3.0	1.0	0.0	boring	0.0	19
Was the lecturer?	4.7	93%	audible	14.0	5.0	0.0	0.0	0.0	inaudible	0.0	19
Was the blackboard?	3.7	68%	legible	6.0	5.0	5.0	3.0	0.0	illegible	0.0	19
Was the pace?	3.3	87%	too fast	1.0	3.0	15.0	0.0	0.0	too slow	0.0	19
Did you learn?	3.7	68%	a lot	3.0	10.0	5.0	0.0	1.0	very little	0.0	19
Page 2											
Tutorial/Problem classes											
Did you find them helpful?	4.0	75%	yes, very	5.0	7.0	3.0	1.0	0.0	no, not at all	0.0	16
Textbook											
Did you get one?	74%					yes	14.0	5.0	no	0.0	19
Did you find it?	3.4	59%	very useful	2.0	4.0	5.0	3.0	0.0	useless	3.0	17
Exercises											
Did you find the questions?	3.4	82%	too hard	2.0	3.0	11.0	1.0	0.0	too easy	2.0	19
Was the marking helpful and fair?	3.6	65%	yes	2.0	8.0	6.0	0.0	1.0	no	2.0	19
Did they help you understand the course?	3.8	71%	yes, a lot	2.0	12.0	2.0	0.0	1.0	very little	2.0	19
Were solution sheets helpful?	3.4	60%	yes very	1.0	5.0	5.0	0.0	1.0	no, not at all	6.0	18
Hours on Homework	3.7									3.0	
General											
Compared to you other courses, was this one?	3.8	69%	very good	3.0	9.0	4.0	0.0	1.0	very bad	2.0	19
Overall figure of merit		74%									
Total number of responses	19										
From Class of	27	70%	Reply Rate								

Note. The figure of merit, F , is calculated from the average return n as follows.

For questions where the optimum response is 5: $F\% = 100 \left[\frac{n-1}{4} \right]$.

For questions where the optimum response is 3: $F\% = 100 \left[1 - \frac{|n-3|}{2} \right]$.
